Quality
determines
whether the price
is economical

Highest quality materials and construction alone give you fine car performance over a long period at low cost for upkeep.

Only the most modern body design and a finish of permanent luster can keep your car looking well for years.

And that's what you get in a Chevrolet! Quality design, quality construction, quality appearance—and many quality features the equal of which you cannot find in any other car at Chevrolet's price.

You get Duco finish in smart colors. You get Fisher bodies on all closed models. You get smart, modern, snappy good looks plus the power, permanence, and dependability that make Chevrolet meet your highest ideals of economy.

Come in—let us show you why half a million Chevrolets were bought last year.

Big Crowd Greet Bills For the First Day

The Elks celebration and carnival held on July 1st was a huge success and the second day promised even greater until a needed downpour of rain in the early hours caused a postponement until today.

The crowd started to gather about 10.30 and before the races were started a crowd lined the main thoroughfare of the town from the Imperial Hotel corner to J. F. Baugh's residence.

On arrival at the grounds the spectators were greeted with the famous midway, at which you could try your hand to win some "sure" useful necessity, providing you hit the lucky number.

There were two baseball tilts on the program, with Luke Bend taking first money. The kiddies came in for their share of the fun, the first on the program being the free treats and a program of races.

The evening program started at 8 p.m. with a picture show, after which dancing was commenced with intermission at 11 p.m. for fireworks, which was a great attraction. The receipts were in the neighborhood of \$1900. The results of the races were as follows:

Free-for-all—1st, Paton; 2nd, A. J. Ray.

Pony Race—1st, A. Whitford; 2nd, F. Whitford; 3rd, F. Williams.

Members of the Taxis Square left on Monday for Sylvan Lake while the Trail Rangers left for buffalo Lake where they will camp for two weeks.

Village Council Has Session on Monday

The regular meeting of the Village Council was held Monday evening with Councillor Walker absent.

All accounts were passed for except that of A. J. Ray which is to be paid at the rate of \$1.00 per load for cinders instead of \$1.25 as charged.

A donation of \$25 was given to the W. L. to be used in fixing up the cemetery.

Reeve Trotter was chosen Council's representative on the Cemetery Board.

The secretary was instructed to advise the Chancellor of the Diocese of Calgary that village will place retaining wall on north side of English Church as soon as current taxes come in.

Don'ts When Painting

- DON'T—paint on a damp, wet day; wood must be dry.
- paint on a greasy surface.
- paint over loose, scaling paint.
- paint on new lumber that is not dry.
- be in a hurry to apply the second coat, wait until the first is thoroughly dry.
- apply exterior paint in heavy coats. Brush out well.
- keep paint brush in coal oil when not in use; keep it in linseed oil or water.
- forget to stir paint occasionally when using.
- DON'T—forget to buy Martin's Paints and receive satisfaction.

They are interesting, these people. Watch them as they swarm around your cruising vessel, docked in Kingston harbor, in their tub-like canoes, and dive deep into the water for your coppers. They are a different people in every sense of the word. Participants in the cruises to the West Indies by the Canadian Pacific S.S. Montreal in January and February next will be afforded every opportunity to study the various peoples with whom they come in contact and will return with at least a few impressions and a better understanding of them. No matter how different they may be, they are never farther from the heart of the British protectorates. If one would really get to the heart of these people be sure to patronize them. If he does this he only finds the type that he expects to find.

Latest Idea In Surgery

Alberta Professor Discovers Medicine That Hastens Recovery Of Broken Bones

Medicine to speed up recovery from broken bones is the latest idea in surgery.

Bones consist largely of calcium phosphate, and after a fracture, fresh quantities of this substance must be taken from the blood for the formation of new bone. The healing process is slow owing to the small quantity of calcium and phosphorus in the blood.

Professor Collop, of the University of Alberta, Edmonton, obtained from the parathyroid glands an extract which, when injected or given by the mouth, increases the amount of both calcium and phosphate in the blood. The parathyroid is a four-lobed gland in the neck near the thyroid gland, or embedded in it.

When Should Man Retire?

Efficiency of the Elderly Not to be Despised Says Sir Herbert Morgan

At what age should a business man retire?

Sir Woodham Mortimer, chairman and managing director of Harrods, opening the Business Efficiency Exhibition at Westminster, declared that many businesses had been ruined by old-fashioned methods and old-fashioned men, who had often to some extent let industry go back by trying to keep their positions too long.

Young men, he urged, should be given their opportunity. Sir Woodman is 52.

Sir Herbert Morgan, director of Lever Bros. Ltd., who is 45, challenged Sir Woodman's statement. He said:

"I think it is the elderly man, despite what may be said to the contrary, who matters in business today. One has only to look round at the great commercial concerns, the big banks, insurance companies, and the like, and it will be found that it is men who are well over 50 who are in control. Business efficiency implies both experience and judgment, which are frequently more highly developed between the ages of 55 and 70."

Sir Harold Bowen, managing director of the Raleigh Cycle Co. Ltd., Nottingham, who is 46, says:

"So long as a man is efficient it does not matter about his age, but I think a man is probably at his best between the ages of 45 and 55 and can give his best to business. On the other hand, there are many cases of firms which are going downhill because the managing directors will not retire."

Of the 647 professions listed in the United States, women are engaged in 632.

VETERINARY DOCTORS

Use and recommend Minard's Liniment. Splendid for sprains, bruises, cuts, chafes, swellings.

ON THE AIR

What is Doing in the World of Radio

KFI station at Los Angeles has an arrangement which calls for an entertainer or speaker without the person knowing that he is talking to the "radio mikes."

A Missouri lady radio fan sends this in to a Kansas City broadcasting station: "Since your station started broadcasting our cat sleeps in the barn."

The biggest radio station in the world is that of Rugby, England, which covers nine hundred acres and has twelve steel masts, each more than eight hundred feet high. The total length of wires used in its aerials is more than three miles. It uses a megawatt of 100 kilowatts and a wave length of about 6,000 meters.

The first wireless station on the Alps has been fitted up. It is located on St. Margaret's Hut, which is 5,250 feet above sea level on the route to the summit of Mount Rosa. Generally, when a climber is in danger and help is needed, the guide has to spend many hours getting down to the foot to secure assistance. With this wireless station at the top, all that is necessary is to send a summons, and in the next few minutes help will already be on the way.

Practically all large broadcast stations in New York are hooked solid for advertising. It is difficult for anyone to get advertising through these stations even at advance dates.

WEAF heads all other stations for advertising accounts and revenue. The charge made by this station is said to range from \$400 to \$600 per hour.

WMOA is another New York station which "carries" a great amount of advertising at a rate said to be \$300 an hour. Other broadcasting stations throughout the country charge similar rates for the use of their studio, but the average cost is estimated at \$75 an hour.

Neuralgia Conquered Its Pain Destroyed

Magical Results Come When You Apply

NERVILINE

It Acts Quickly

Mr. W. T. Greenway, formerly connected with the Galde newspaper staff, has written: "For twenty years we have used Nerviline in our home, and not for the world would we be without it. As a remedy for all pain, neuralgia, toothache, cramps and disordered stomach, I know of no preparation so effective and reliable as Nerviline." Remember this, wherever there is pain, rap on Nerviline, and you will get prompt results—50c at all dealers.

Tip On Tacking
Tacks are elusive and hammers in the inexperienced hand bruise the fingers easily. Try this: Stick the tack through stiff paper or light cardboard, then hold the paper in the desired position. Thus you may bang away at Mr. Tack until he is subdued.

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own best argument—its own best advertisement. If you suffer from asthma get this line-tested remedy and help like thousands of others.

Victims of Wild Animals
Over 3,000 People Killed in British India Last Year
In British India alone last year it is reported 3,465 persons were killed by wild animals and 29,000 died from snake bites. Tigers accounted for 1,463 deaths; wolves for 815; leopards for 464; and crocodiles took the lives of 213. The wild pigs killed more than 100, bears and elephants about 78. During the year about 23,000 wild animals were killed, so that the ratio of human to wild animal deaths in the jungle is only about one to six.

It Has Many Qualities—The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will relieve a cough, break a cold, prevent more throat; it will reduce the swelling from a sprain, relieve the most persistent aches and will speedily heal cuts and contusions. It is a medicine chest in itself.

Human nature hasn't changed. Old-time boys would have been just like the moderns with the same amount of rope.

Minard's Liniment for colds

League Of Nations Report Shows Slavery Still Exists In Many Parts Of The World

It is difficult for people on this continent to realize that a million men, women and children in the world are condemned to the inhuman miseries of slavery.

The evil is too gigantic to permit the comfortable illusion that only its smoldering embers remain. In some parts of the world it flourishes openly in all the horrors of its traditional form. In others it abounds in new disguises, equally deadly in their heads of seridom. Their existence might be unbelievable without the disclosures being made by the League of Nations, which has a commission charged with the discovery of the forms slavery is now taking, and with an attack upon their continuance.

Though slavery still persists in many of its habitual regions in Africa, its more dangerous phases, because they are less definable, are found in many quarters of the globe. It is true that Africans captured chiefly in Northern Africa are transported mainly through Egypt and small islands in the Near East, and there held in abject slavery. It is true, too, that children, especially girls, are brought from the Far East on pilgrimages to Mecca, and sold by their parents into slavery in Arabia. And it is stated to be equally undeniable that under the government of freed slaves ruling the republic of Liberia, slavery is permitted and practiced.

A United States commission of inquiry has submitted to the league a report of harrowing conditions found in Portuguese Africa, notably in Angola and Mozambique. In fact, the whole story of slavery in the world as revealed by the commission of the League of Nations is one of grave and disgusting import. It is based on evidence already admitted to be of a nature so sensational that, for reasons seemingly not yet revealed to the world, Mr. Poincaré, who was under secretary of state for foreign affairs in the British Labor government, declined to have it divulged in full, as it was "not in the public interest to let the world know what was going on."

China declares it does not allow slavery, but that does not prevent the Archbishop of Canterbury from being presented with damning evidence to the contrary. He no doubted the sincerity of the dark picture portrayed by him that he sought information from "an eminent Chinaman who is in this country (England)." He was informed the picture was not nearly dark enough. The archbishop suggested that though slavery might pertain to Western China, it could not be prevalent in the great cities of the east. The eminent Chinaman replied: "Oh, yes, it is. I could buy slaves for the next four hours. There is not the slightest difficulty in buying girls; I could buy them anywhere."

Such evidence of slave trafficking in China is verified by investigations instigated by the International labor office at Geneva. These reveal a terrible state of sale and debauchment in slavery of female children. "Such sale of female children," says the report, "although undoubtedly contrary to Chinese law, does not appear to be interfered with in any way by the Chinese government, and is charged with the administration of justice."

Grain Lost In Transit

Only 21,454 Bushels Grain Lost In Transporting 288,637 Cars

On the basis of claims presented to the grain commission during the crop year ended July 31, 1925, only 21,454 bushels were lost in transporting 288,637 cars of grain from the prairies to the head of the lakes.

In answer to a question asked by John Miller, M.P. for Qu'Appelle, it was stated by the government that only 535 claims were filed or about 18 per cent of the cars handled.

The minimum loss reported was 440 lbs.; the maximum 14,996 lbs.; and the average 2,509 lbs.

Dairy Production In Alberta

Alberta's dairy production in 1925 amounted to \$23,092,600, a slight decrease from the figure of the preceding year, according to a report of the provincial dairy commissioner. The production last year was made up of the following items: 19,500,000 lbs. of creamery butter, valued at \$6,873,600; 1,375,400 lbs. of factory cheese, worth \$278,400; and other products, valued at \$15,859,396.

As a rule the people who howl for free speech are the kind that get mad if you don't stand and listen.

The man who is constantly in the public eye is apt to get an occasional rub from the public knuckles.

W. N. U. 1622

Home-Cured Pork and Beef

Exhibit Of Farm Dressed Meats If Shown At Saskatoon

One of the most striking features of the livestock demonstration put on by the animal husbandry department of the Saskatchewan College of Agriculture at the recent convention of agricultural societies was an exhibit of home-cured pork and beef.

A select carcass was first shown to show the source of meat of every quality with that shown in a cured state. The finished product was hung on the rail, displayed on a table beneath and prepared most temptingly, and the equipment for curing also exhibited. To complete the effect, sandwiches were distributed from the final cooked ham distributed to the delegates with coffee.

A review of current prices showed a striking spread between the dressed carcass uncured and the treated bacon and ham. Whereas it paid better as a rule to sell live hogs than dressed carcasses from the farm, the saving on home cured meats as compared with buying cured meat did appear well worth while to cure a carcass for home use.

Discovery Will Be Welcomed

U. S. Professor Finds Mixture Guaranteed To Repel Mosquitoes

Discovery of a mosquito repellent is announced by Dr. William Rudolph, instructor of entomology at Rutgers University.

The discovery was the result of a four-year study. "The best protection can be secured by mixing ordinary insect powder extract with vaseline, cold cream, or face powders," he says. For making a repellent about fourteen parts of oil or extract was mixed with 24 to 30 parts of vaseline or cold cream. In case of powder is wanted the substance can be mixed with wheat flour, or talcum powder.

Dr. Rudolph explained that in mixing the ingredients he used too much oil as the powder would absorb without becoming pasty. The mixture, he announced, afforded protection for from two to three hours. He also said that the tests were carried on when mosquitoes were allowed upon the experimenter at the rate of from two to twenty a minute.

Spring On The Prairies

You Get The Sensation Of Truly Living In The Wide Open Spaces

It is in the early spring, too, that one gets out there the sensation of truly living on the great prairies. You get into the west pasture and you seem to feel the country stretching away in rolling farm lands for hundreds of miles in every direction, either unswayed, houses and barns levelled and boundary lines obliterated, as they all look on a schoolroom map. Local activity in summer and fall partially dispels this feeling, but in the spring you get to know the things connected in that term "Western prairie lands." Probably for this reason this is the time of year when the inherited pioneering blood surges up at you there. You grow restless, tug at your tether ropes and fight the temptation to pull up stakes and get out on the road leading "farther west."—New York Evening Post.

Consumption Of Meat

Eating More Meat But Less Pork In United States

The average consumption of meat in the United States was greater in 1925 than in any year since federal meat inspection was instituted in 1907, says the report of the national livestock and meat board.

The use of pork declined from that year, probably due to higher prices incident to the 20 per cent decrease in hog receipts at central markets. But veal, beef and mutton all increased.

The average person in the United States last year consumed 154.3 pounds of meat, the report shows. This was four pounds greater than the average consumption for the last 18 years.

How To Avoid A Collision

If a car should suddenly drive across the path of your car, or if a car ahead should turn to the left as you were starting to pass it, turn your car quickly in the same direction taken by the other car, at the same time slowing your car's speed. If an attempt were made to bring your car to a stop without turning, the probability is that you could not stop in time to avoid a collision.

Prairies Have Not

Reached Horseless Age

Regina Firm Cannot Keep Up With Orders For Harness

While some people have been pointing with justifiable pride to the number of automobiles in Saskatchewan and talking glibly of the "horseless age," quite a few other busy people are saying little but quietly making a profit out of the knowledge that horses are very much in evidence in this prairie province just now.

Back in the days when land prices were skyrocketing, Regina citizens used to boast about living in the greatest farm implement distributing centre in the world, at the same time admitting they were taking in quite a bit of territory. Now note what is doing in the harness business: One Regina wholesale firm has already sold 950 dozen horse collars alone this year. That's enough to provide a new spring collar for 11,400 horses.

The manager of that concern admitted he was doing great business. "Nothing like it in the history of this firm," declared the manager of another big wholesale house. "I should know something about it," he continued, "as I have been local manager for 15 years." He figured the total spring business from Regina alone would run to 8,000 complete sets. But that is a fly in the ointment. The great demand for harness in a horseless age was hardly anticipated. Factories in Eastern Canada are unable to keep up with the orders. Goods that should have arrived here early in February are arriving now. Anxious buyers are being held off, and at least one-third of the orders remain unfilled, while telegrams flash back and forth between jobbers and factories.

Saskatchewan Egg Pool

Nearly Forty Receiving and Six Canning Stations Established

Establishment of a branch office at Brandon is proposed by the Saskatchewan Egg and Poultry Pool, which will begin operations shortly. Ralph Brightly, general manager, stated today that the branch would handle only Eastern Saskatchewan eggs.

Nearly forty receiving stations have been established by the pool in Saskatchewan together with six canning stations at Regina, Moose Jaw, Assiniboia, Swift Current, Saskatoon and Humboldt.

To date the pool has 10,400 contracts signed and the campaign is well in progress. Organization work has not yet reached the stage where the date on which the pool will come into operation can be announced, Mr. Brightly stated.

"We're going to learn freework at school, mother."

"Then I shall send you to another school, or you'll be growing up like your father. He works on Monday, and frets about it the rest of the week."

Americans Buy B.C. Lumber

Millions Said To Be Invested By Big New York Interests

Announcement is made of the purchase of 4,000,000 feet of standing timber, a ten-acre site and shingle mill located on Coal Harbor, almost in the heart of the city, a mill site on Lantz Island, opposite New Westminster, and sundry other assets of the old British Timber Corporation.

The amount of money involved was not made known, but is estimated to run into millions. A new company known as the Great Western Corporation has been incorporated with a capitalization of \$1,000,000 and this amount will be required, it is expected.

Howard Cole, prominent lumberman of New York, is president of the new company, while Beckner Shipley of Palm Beach, Fla., is associated with it.

One of the first developments will be the construction of a mill on Lantz Island. The Coal Harbor property which has become almost too valuable for sawmill purposes, probably will be reserved for industrial purposes. Of the timber secured, three billion feet is in the Massett Valley district of Queen Charlotte Island, north of Skeena, and a number of limits along Bear Creek in the Kootenay are included.

Add New Empire

Early Maturing Wheat Will Push Agricultural Belt Farther North

"The discovery of varieties of wheat which mature early, such as Marquis and the new variety known as Garnet, has pushed the agricultural line in the prairie provinces 40 miles further north according to a bulletin issued by the Canadian department of trade and commerce. Thus it may be estimated that a vast new empire composed of some 50,000 square miles, or 22,000,000 acres, will, in the course of time, add its quota to the golden harvest of the Canadian west," says the Quebec Chronicle.

The agricultural wealth of the three prairie provinces is at present estimated at \$3,500,000,000. Manitoba, larger than Germany, Belgium and Holland combined, had last year 7,600,000 acres under cultivation in 1925 and only 14,600,000 acres occupied; Saskatchewan with 161,000,000 acres, is cultivating less than 37 per cent; Alberta, with practically the same area, has only 10,400,000 acres disposed of out of 60,000,000 acres of agricultural lands already surveyed.

Teacher to boy slipping killy in school during writing time:—"Henry, why are you not writing?"

Henry—"I ain't got no pen."

Teacher—"Where's your grammar?"

Henry—"She's dead."

"I'll never ask another woman to marry me as long as I live."

"Refused again."

"No, accepted."

The Duke and Duchess of Atholl

Who have just celebrated their silver wedding. The duchess will attend the third triennial conference of the National Council of Education to be held at Montreal, April 8-9. Her Grace will attend in her capacity as parliamentary under-secretary of the British Department of Education.

Effort Being Made To Increase The Growing Of Forage Crops In The Western Provinces

Has Had Successful Year

Pouze Coupe Creamery Is 400 Miles From Nearest Market

British Columbia—if not Canada's—most northerly creamery, that of the Pouze Coupe Creamery Association, has just concluded its second year's operation and at the annual meeting recently held at Dawson Creek, Peace River, B.C., much satisfaction was expressed at the results.

Situated 399 miles from the railway and practically 400 miles from the nearest market, this creamery association has surmounted the almost overwhelming overhead in additional freight charges incidental to trail and rail of such distance and has paid a satisfactory return to its patrons, some 70 in number. Most are married settlers and by their cream checks receive sufficient to meet their grocery bills.

Owing to the scattered population long distances have to be travelled to secure a sufficient supply of cream to keep operating, the farthest point reached being the soldier settlements at Cathkan and Sanset Prairie, 40 miles away.

During the year 34,000 lbs. of butter fat were manufactured and sold for \$11,784. Dressed poultry to the value of nearly \$1,100 was also sold. After paying expenses and setting aside a sufficient sum for repayment of mortgage on machinery and depreciation on plant and buildings, nearly \$4,000 was distributed to the patrons.

Provisions for paying off mortgage on machinery, reserves for depreciation of machinery and buildings were also made out of the surplus.

Farmers Receive \$37,000,000

Enormous Sums Received By Western Farmers By Recent Wheat Pool Payment

The wheat pools in the three prairie provinces—Manitoba, Saskatchewan and Alberta—made a further payment recently to farmers who are members of the pool of twenty cents a bushel on all grades of wheat. For coarse grains six cents per bushel was paid on oats and barley; ten cents on rye; twenty-five cents on flax. Approximately 350,000 checks were mailed from the three provincial offices, amounting to a total of about \$37,000,000.

The wheat pools are co-operative organizations controlled by the farmers of the western provinces for the marketing of their grain. Initial payments are made to the farmers when the grain is delivered and further payments as the pools' operations for the season become apparent. The payment just made representing a distribution of \$37,000,000 among western farmers, will be an important factor in promoting industrial and agricultural prosperity in Western Canada during the next few months.

Settlers From Holland

Party Brought Out By Holland Colonization Board of Saskatoon

More than 200 Dutch agriculturists, the first large party of Hollanders to be brought to Canada this year by the Holland Colonization Board of Saskatchewan, with headquarters at Saskatoon, sailed from Holland recently, G. H. Hoof, chairman of the board, announced.

The party includes 117 single men, 20 families and 12 domestic. Twenty-five of the men will settle in the Yorkton district, 20 more in the Prince Albert area, and the remainder including all of the families, will be established in the Nipawin Valley.

Canadian Bells May Find Market

Canadian growers of flowers, at least some of them, are coming round to a belief that Canadian enterprise and ingenuity ought to be encouraged more than at present. There is satisfaction in knowing that the idea in receiving some thought and publicity, and that before many years have passed bells originating in this country may find a market even in Holland; in any event, everywhere on the American continent.—Guelph Mercury.

An Up-to-Date Tomb

A telephone and electric light grace the interior of the mausoleum in which the body of Martin A. Sheets, wealthy stockbroker, was entombed in Turin, Italy, Ind. Sheets, asked that his tomb be so equipped that he might have opportunity to talk with the outside world if he should awaken.

Alberta's wool clip has grown from zero to 2,500,000 pounds in the course of a few years. About 300,000 sheep were clipped last season.

The continued interest of the Canadian Pacific Railway in progress of agriculturalists who have settled in the territory served by its lines is continually being evidenced in fresh manner.

This spring, in an effort to increase the growing of forage crops, through certain sections of the prairie provinces, a vigorous campaign of encouragement and practical assistance will be prosecuted through arrangements which have been made between the Canadian Pacific Railway and the provincial departments of agriculture. In each province of Manitoba, Saskatchewan and Alberta a special forage car will circulate through the districts. It is desired to reach carrying to them the doctrine of a safer and more stabilized system of farming.

The Canadian Pacific Railway has equipped and is operating the entire force of charge in each province, and this will contain samples of various forage seeds and be staffed by experts supplied by the provincial departments of agriculture who will lecture at the various stops. Attached also are cars carrying a liberal supply of seed which will be disposed of to farmers in small lots for experimental purposes, growers being able to secure sufficient for areas up to five acres. Small packages of corn will be distributed to school children, enough to seed one quarter of an acre, and they will have an opportunity to enter various competitions held in the fall in connection with the corn show which is now an established institution in each province.

In Alberta the tree planting car, which has performed such valuable work in the past, is accompanying the forage campaign.

Throughout the campaign special emphasis will be placed on the growing of fodder crops which have been found best adapted to local conditions. A great deal of knowledge has developed out of the experiments and experiences of the past fifteen years and an effort is being made to carry this to the parts of the country where its application is likely to prove of the greatest value. Corn growing for fodder has been given the attention as growing important warrants, whilst sweet clover, brome grass, and alfalfa will also have their respective places in the campaign. In 1925 the three prairie provinces combined had 979,579 acres devoted to hay and clover which yielded 1,658,600 tons; 65,151 acres to alfalfa yielding 341,700 tons; and 160,220 acres to fodder corn yielding 548,000 tons.

Becoming Menace To West

Destructive Rat Is Rapidly Invading Prairie Provinces

In the Saskatchewan Legislature, steps were taken to fight the invasion of the rat. It was stated that the territory east of a line drawn from the northern base of the mountains to Lampman, Broadview, Melville and Priestville, was now rat-infested and that the government was doing what it could to stop further incursions. Up to ten years ago the rat was unknown in the three prairie provinces. There was great excitement when the first rat was discovered at Emerson, on the Manitoba boundary line. Little by little he made his way north until in Winnipeg today the rat is almost as common as in eastern cities. Then the rodent started peaking west, until now he has reached Saskatchewan, and the Saskatchewan Government is making a fight to prevent his further spread.—Kingston British Whig.

Japs Eat Much Rice

Rice consumed in Japan in 1925 is estimated by the agriculture and forestry department at 335,000,000 bushels. Of this total 235,000,000 bushels were of domestic production, while the remainder was imported principally from Korea, China and Indo-China. Compared with the preceding year, an increased consumption of 5,500,000 bushels is shown.

Arabs In Palestine May Revolt

Chaim Weizmann, leader of the Arabian party in Palestine, has arrived at Geneva and sent a letter to Sir K. R. Drummond, secretary-general of the League of Nations, declaring that the failure of the league to dispatch a commission to Palestine constituted the "palatial situation of the Arabs" threatens to ferment a revolt there similar to that in Syria.

More Area To Govern

Barber—"You complain of our charge for shaving off, but you miss that bit of the extra hair."

Customer—"What extra labor?"

Barber—"Well with the high cost of living, gentlemen's faces are longer than they were."

A Rest Room

Fully two-thirds of the villages
and towns have a Rest Room as
one of the necessary public util-
ities for the comfort and conven-
ience of the women from the
rural districts. This is usually
under the auspices of the W. I.,
an organization under the Depart-
ment of Agriculture, and sup-
ported by the public indirectly,
as it is patronized in all its efforts
by the public. This makes it a
world-wide influence in the work
for the public welfare.

Why not then, open our W. I.
building to the rural women on
Saturdays so that when they
come to town they know they
can find shelter and most friends
and neighbors and have a certain
amount of restive privacy if they
so wish.

The question of the day is the
drawing of trade to Mirror, but
the attitude of some of our citi-
zens, and we will go further, and
say the attitude of some of the

W. members up to the present
has forestalled this great move-
ment for the betterment of Mir-
ror. True, each and everyone is
entitled to his or her own opinion,
but on a question of such great
moment to Mirror and commu-
nity of such benefit, surely this nar-
row-mindedness, selective class
domination can be overcome.
Throw petty strife aside — of
which there is too much in Mir-
ror — and work in unison and let
those opposed to the opening of
this building as so stated, put
themselves in the place of the
rural women, and see how they
would like to be told that they
are not wanted in town, for this
is practically what it amounts to
when you refuse to open a build-
ing for the benefit of a commu-
nity that supports it. Therefore
we say to the W. I. open wide
your doors and show your Chris-
tian spirit of brotherly love to
your rural sisters, and that after
the next meeting of the W. I. we
will be able to publish the good
news that the doors have been
thrown open for this purpose.

Presentation to Mr. and Mrs. Baugh by Friends

A very enjoyable evening was
spent on June 30th at the home
of Mr. Baugh on Wednesday eve-
ning when a few friends gathered
to surprise them. During the eve-
ning Mr. George Thomas, on be-
half of the friends, presented the
gifts of honor with a handsome
gift.

Card of Thanks

To all workers and supporters
who assisted me in the Election
I wish to express my sincere
thanks and appreciation.

I feel very pleased with the
splendid vote polled, and with
the faithful and loyal support
of so many of my old friends.

It is gratifying to note that
there was no mud-slinging or
personalities either from our
side or from our opponents, so
that the campaign has been
clean in every respect.

While the forces of class gov-
ernment have prevailed, for the
time, it is inconceivable that
their success can be permanent
in a country where all the founda-
tions of Government are
based on the principle of "Equal
participation by all the people
in the affairs of Government
without regard to class or creed
or occupation" — "Of the People
for the People by the People."
W. E. PUFFER.

Call for Tenders

Tenders for painting the W.
I. building will be received up
to Saturday, July 10th, work
only, for the following: Size of
building 16 x 40, 8-ft. stud; 2
coats outside paint and trim; 1
coat shingle stain. Inside — 1
coat filler, 2 coats inside paint
on ceiling, walls and wainscot
and trim. A good workman-
like job required. Lowest or
any tender not necessarily ac-
cepted. Deliver tenders to Mrs.
J. Astle.

Around the Town

Mrs. Cormack left Saturday
for a visit to Const points.

Mrs. D. E. Bull is visiting in
Winnipeg.

Ross left last week for a
motor tour of U. S. points.

F. R. Symons and family are
in Edmonton this week.

Nelson Bryan is a visitor at
the home of George Bell.

Mr. and Mrs. A. W. King are
visiting at Pine Creek.

Mrs. C. Scales left on Satur-
day for a holiday in Vancouver.

Donald Olson, of the Ripley
district is visiting at the home of
Mr. H. Williams.

Mrs. McClary spent last week
the guest of her niece, Mrs. E. L.
Snathers.

Mrs. A. E. Eastes and children
of Duchess were the guest of Mr.
and Mrs. G. P. Puffer last week.

Mrs. A. McLaren, Montreal,
arrived in town Monday to visit
her sons, James and, William
McLaren.

Hugh McNair attended the
Norse celebration in Camrose
last week.

Mrs. R. Patrick, of Saskatoon
is visiting her father, Mr. A. C.
Pederson.

Miss Johnson and Miss Ennis
of the school staff, have gone
to their homes for the holidays.

A. C. Peterson with wife and
family, of Elthberg, spent Sun-
day with Mrs. Peterson's sister,
Mrs. A. Miller.

Costable Crossley has been
transferred from Bashaw to
Camrose and Corp. Lees has
taken his place.

Mrs. Earl Estell returned last
week from Calgary, where she
underwent an operation for the
removal of a goitre.

Mr. and Mrs. Holder and Mr.
and Mrs. Baugh left last week
for a motor trip to Banff and
other B. C. points.

Miss E. Pemberton and Mrs. E.
McLeod were no less than a de-
lightful shower given in honor of
Mrs. J. McLeod.

Miss Mae Emerson, of Lac-
ombe, is spending a few days
with her friend, Miss Elsa
Holmes.

The official count in Lacombe
constituency gives Mrs. Parly
1891 votes, Pratt 476 and Puffer
1172 with 299 spoiled ballots.

H. J. Snell Sight, Specialist,
will be at the Imperial Hotel,
Mirror, on Wednesday July 21,
and every third Wednesday of
each month.

Dr. and Mrs. Morgan and
friend from Lacombe, and Mr.
and Mrs. Godard, of Mirror,
were Sunday visitors with Mrs.
Holmes at Lake Bend.

Mrs. D. S. McIlroy, Mrs. R.
Guthrie and grand-daughter, Is-
abelle Black, of Calgary, and
Mrs. J. McIlroy, of Vancouver,
have arrived to spend the sum-
mer at Curr's Beach.

A basketball game will take
place at 8 p.m. at Lake Bend
School between Lake Bend and
Gadsby Lake. A dance will fol-
low the game. Good music.

The ice cream social at Lake
Bend was a huge success. Over
50 from Mirror were present and
enjoyed a good program. The
Community Club cleared \$18.00.

Miss Delta Simpson has re-
turned home from Richmond,
Indiana, and was accompanied
by Miss Overman who is spend-
ing her vacation at Canadian
points.

The Ice Cream social and
raffling of the organ took place
at Ripley school last week. The
organ was won by Mrs. George
Bell, and report has it that
Rosa Trotter tried to corrupt
the ice cream.

W. Bryan is spending his
holidays in Edmonton.

A cemetery board has now been
appointed to take over the man-
agement of the cemetery under
the direction of the W. I. The
Board is composed of the follow-
ing: Mesdames W. C. McCor-
mack and N. Spiece, representing
the W. I.; D. M. Jewell represent-
ing the Municipality; M. Olson
representing the district and W.
J. Trotter representing the coun-
cil. It is hoped that this board
will have whole-hearted support
in every way from the public and
when called upon for assistance
will gladly respond.

S. H. Carter and F. Steinman,
on a field publicity tour for the

Edmonton Exhibition, to be held
from July 12 to 17, informs The
Mail that the Exhibition authori-
ties this year have arranged for
one of the best programs ever pre-
sented to the public. Having
journeyed as far west as Edison
and north to Whitecourt and
Westlock these gentlemen have
had an opportunity of studying
conditions and state that the ex-
hibitions are looking good all over. Pros-
pects were never better for a
bumper crop.

The Mirror Elks entertained
about 150 of their friends to an
ice cream social held in their
beautiful Club rooms on July 2.
During the evening Past, Exalted

Ruler J. Purcell was called to the
chair, and after an address by
Leading Knight, D. M. Jewell, in
which he thanked Mr. Purcell on
behalf of the lodge for the great
interest shown and the work he
had done, and also wishing him
many happy returns of the day, it
being his birthday, he presented
him with a cheque for a very
handsome sum. The recipient
replied and expressed his thanks
and said that inasmuch as the
cheque was tendered him in the
interest of Elksdom he would pass
it along when it would carry the
spirit of Elksdom to the less for-
tunate, endorsed the cheque and
asked that it be forwarded to the
Children's Orphanage at Olds.
